Sancerre Blanc "Les Vignes Silex" NV

WINE DESCRIPTION

From a vineyard along the Loire river. From sileaceous soils, local called "rocks".

The harvest is destemmed, gently pressed and then racked before fermentation in temperature controlled stainless steel tanks. Bottling happens after stabilisation and light filtration.

TASTING NOTES

Nice fruit with citrus notes, nice freshness. This wine is more mineral than our other cuvee due to the difference in the soils.

FOOD PAIRING

Ideal with fish and seafoods it can also be paired with lentils and goat cheese.
